

## 2023 PLAN YOUR YEAR WITH CATALYST

Through webinars, roundtables, and signature events, Catalyst shares the latest research and resources on gender equity and DEI. We'll focus on Accelerating Equity on All Fronts—So Women Thrive, taking Supporters on a journey to drive impact.

Here's a look at the monthly initiatives guiding this year's work to help create more equitable workplaces that support all women.

JAN  
& FEB

### Lead with Equity and Inclusion (LEI)

Building greater workplace equity is an ever-evolving path of incremental progress. Through our LEI initiatives, Catalyst advocates for inclusive leadership at all organizational levels while learning from different organizations.

JULY  
& AUG

### Rest + Recharge

Accelerating equity and inclusion is hard work, and sometimes, we all need to pause and focus on our own individual professional development. Learn how to purposefully make time to take care of ourselves, so we become more energized to continue creating equity for all.

MAR  
& APR

### Advancing Women

Learn how to recruit, retain, and advance women, including women from marginalized groups, at every level. Catalyst provides cutting-edge convenings and resources so that organizations can evolve their practices, policies, and measurement strategies to achieve greater representation and equity for all.

SEP  
& OCT

### MARC (Men Advocating Real Change)

Our MARC initiative is designed to inspire and equip men to leverage their unique opportunity and responsibility to be advocates for equity. Our research-based experiential learning disrupts traditional diversity, equity, and inclusion (DEI) approaches to enhance gender partnership and accelerate the creation of inclusive workplaces.

MAY  
& JUNE

### New! Frontline Employees Initiative

Traditionally, Catalyst programs and research targeted people that worked in an office. We're now broadening our focus to include frontline employees because different women have different needs—and they all deserve to thrive in the workplace.

NOV  
& DEC

### Women + The Future of Work

Flexible work is a key foundation of inclusive work cultures for Women and the Future of Work. Catalyst resources are available to help your organization be as inclusive as possible, regardless of future crises and trends.

## WOMEN'S HISTORY MONTH & INTERNATIONAL WOMEN'S DAY 2023

This March, we are preparing for International Women's Day—March 8th—and a full month-long Women's History Month campaign. We'll expand the understanding of inclusion and invite individuals and organizations to share their pursuits of equity and celebrate where **#InclusionThrives**. Stay tuned for more details!

*\*Celebrated in some countries around the world.*

# PLAN YOUR YEAR WITH CATALYST

## 2023 WEBINARS

Our webinars are complimentary for employees of Catalyst Supporter organizations; employees of non-Supporter organizations can attend for a fee. To view our 2023 webinar lineup, please visit [catalyst.org/webinars](https://catalyst.org/webinars).

Have a question? [Contact us](#).

*Webinar topics, descriptions, dates, and times are subject to change, and Catalyst may adjust in-person and hybrid events to online-only events.*

## 2023 EVENTS

Our events bring together an international community of Catalyst Supporters and give you access to thought leaders and experts, leading practices, honest dialogues, and real-world stories focused on creating more equitable workplaces.
